Office Action Summary

Art Unit: 3764

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 28 and 30-31 are rejected under 35 U.S.C. 102(e) as being anticipated by Brooks.

Brooks discloses in figure 3 a portable sacrum support comprising a central portion 30 including a recess (the opening in the pouch 30) and an insert 16 that has different density valves (col. 6, lines 1-30).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 29 is rejected under 35 U.S.C. 103(a) as being unpatentable over Walker.

Art Unit: 3764

Brooks discloses in figure 3 a portable sacrum support, substantially as claimed. However, Walker does not disclose what force the support provides. It would have been obvious to one having ordinary skill in the art at the time that the invention was made that the sacrum support as disclosed by Brooks could provide a force of 2 psi to 4 psi because the foam material can be made soft or more rigid.

Allowable Subject Matter

Claims 1-27 and 32-33 are allowed.
